● OPERATIONAL INSTRUCTIONS

1. BASIC OPERATION

- Move the On/Off switch to the On position to power on the speaker.
- Press the mode change button (🔊) to toggle between modes Bluetooth/FM Radio/AUX line in/micro SD card read.
- Press the play/pause/answer button (⏮) to pause or Play a song, pick up a phone call when in Bluetooth hands free mode, or do a station scan when in FM mode.
- Press the previous/volume down or next/volume up buttons (⏮ ⏭) to change to the next or previous song or to step through the next station frequency when in FM mode.
- Press and Hold the previous/volume down or next/volume up button (⏮ ⏭) to adjust the volume accordingly.

2. BLUETOOTH OPERATION

- Pairing: When the speaker is in Bluetooth mode it will automatically be in pairing mode if not already paired to a device. Search for B-Trek S2 in your device's pairing screen and select to connect it. If asked for a pairing code or password enter 0000 (four zeroes). If not in a pairing mode press the mode change button (🔊) until the indicator LED flashes between red and blue.
- Music playback & Volume can be controlled from the device or the speaker by using the Basic Operation instructions above.
- Hands Free: If the speaker is paired with a mobile phone, it will function as a hands free device. When you have an incoming call press the play/pause/answer button (📞) to answer. Hold the play/pause/answer button (📞) for 3 second to reject the call. You can also press the play/pause/answer button (📞) quickly twice to redial the previous call.

3. FM OPERATION

- Press the mode change button (🔊) to toggle between modes and enter the FM Radio mode.
- Press the previous/volume down or next/volume up buttons (⬆️ ⬇️) to step through each FM frequency in the indicated direction.
- Press the play/pause/answer button (📞) to scan for FM stations automatically. The speaker will stop when it finds a strong signal.
- The volume can be controlled as indicated in the Basic Operation above.

4. AUX LINE IN OPERATION

- Inserting a 3.5mm auxiliary audio cable into the AUX line in port will automatically set the speaker in the AUX line in mode. If you already had a 3.5mm audio cable inserted and were in another mode, you can press the mode change button (🔊) to toggle into the AUX line in mode.
- The volume can be controlled as indicated in the Basic Operation above.
- Music playback can be controlled from the device or the speaker (if the connected device supports commands through 3.5mm audio cable) by using the Basic Operation instructions above

5. MICRO SD OPERATION

- Inserting a micro SD card into the micro SD card port will automatically set the speaker in the micro SD card read mode. If you already had a micro SD card inserter and were in another mode, you can press the mode change button () to toggle into the micro SD card read mode.
- Only MP3 file that are on the micro SD card can be read and played by the speaker.
- Music playback & Volume can be controlled from the speaker by using the Basic Operation instructions above.

6. CHARGING OPERATION

- Connect the speaker to a laptop, computer, power bank, or power adapter with the Micro USB cable included (5V/500mA) through the charging port. The LED indicator will turn solid red while charging and will turn off when fully charged.
- Please charge the battery fully before the first use of the speaker.

● ADDITIONAL INFORMATION

Hands free functionality is only available in the Bluetooth mode and on mobile phone that support the hands free Bluetooth profile.

Do not use the speaker in water

Avoid using the speaker in extremely humid environments

Avoid placing the speaker near strong magnets or strong magnetic fields.

LED indicators are as follows:

- Alternate flashing between red and blue: Bluetooth pairing mode
- Flashing blue: Bluetooth mode (connected)
- Flashing red: FM Radio mode
- Solid red and blue: AUX line in mode
- Fast flashing blue: micro SD card mode
- Solid red: Charging (in any mode)
